

We've Got the Tech!

Securely View Your Child's Class from your home or car!

As part of the Safer Studio™ program that supports gyms and dance studios around the country and in an effort to reduce the number of people entering the building due to current health guidelines, West Chester Academy is no longer able to have parents in the lobby areas to watch their children's classes on the monitors. We know that for many of our parents, this is an important part of the WCA experience for your family. Therefore, we have invested in the Spot TV system which allows parents to download a free app and securely view the class their child is in from their home or car. Here's how to get connected:

1. Download the **Spot TV Family** app on Google play or the App Store
2. Open the app and on the Home Screen, select the "New Here?/ Sign Up" Button at the bottom right.
3. Click on either Parent or Relative.
4. Enter your first and last name.
5. Enter the number of enrolled children and click next.
6. On the next screen, you only need to enter your email address.
7. Select an Activity Center (West Chester Academy).
8. Enter child's name.
9. Enter a user name for yourself and enter a password.
10. Select the class(es) your child is in by entering the name of the class in the search bar.
11. Click Done at the bottom of the screen.
12. Click "Awesome" on the pop up window.
13. Log in at your child's class time. The first time you log in you have to create a PIN. You will not be able to see the classroom until it is time for the class to start.
14. Agree to the terms on the next screen.

If you need any assistance with your viewing experience, please reach out to Spot TV's family success team at 1-844-307-7768. They are standing by to help M-F, 8 a.m. - 5 p.m.

*Please note, all accounts will remain in a holding/pending state until they are verified and approved by West Chester Academy. Accounts will be given access ONLY to the particular class(es) for which they have been approved. For your security, screen shots are not permitted. Accounts will automatically be placed on hold if the app detects a screenshot.
